Wheel & Tyre condition						
Wheel bolt torque setting (NM)						print

ENSURE WHEEL BOLT TORQUE IS RECHECKED AFTER 20 MILES & BEFORE EVERY TRIP

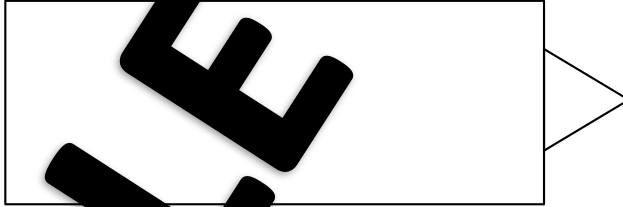

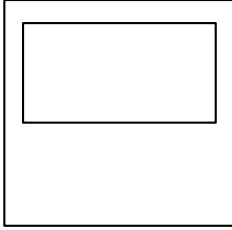

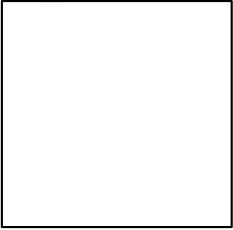

Damp Survey & Guidance notes

Readings between:

0-15% - readings not recorded because no cause for concern.

16-20% - compare with average, consider recheck in 3 months. **above 21%** may be due to water ingress, consider recheck in 3 months.

Above 30% - structural damage may be occurring and deterioration is inevitable, investigation & repair advised.
